B. P. GENTRY, SUPT.
MISS GUSSIE DILLS, RURAL SUPERVISOR
MISS JOSEPHINE BRADLEY, OFFICE ASSISTANT

LILLINGTON, N. C.,
January 10, 1928.

Mr. W. F. Credle,
State Department of Education,
Raleigh, N. C.

Dear Sir:

With reference to erecting Rosenwald Schools in this county for the coming school term. I am writing to say that we need to erect one at Angier. They want one at Lillington but I am fearful to undertake quite as large a plan right now as the Lillington people want. At Angier we will need to erect a three teacher school. We would certainly need to erect as many as five rooms at Lillington with a large auditorium. Whether we can do this or not depends on our ability to finance some from the county the next school term.

Please fill out an application for what you will let me have on the three room school building for Angier because this one will be erected first. I am of the opinion that we will erect the Angier building next summer. If you do not mind letting me have the remainder of the ten thousand available after we have erected the Angier building to erect the Lillington school, please send application for this, for five or six class rooms with auditorium and send it along also.

They will want a brick building at Lillington but I do not know about this. I do not believe the Board will guarantee to use the amount for the Lillington School at this time because we may not be able to finance the remainder of this building.

Please let me hear from you with reference to the above. Thanking you, I am,

Sincerely yours,

B. P. Gentry

BPG-B

County Superintendent.
