SUMMARY AND CONCLUSIONS x

INTRODUCTION 1

STUDY AREA 8

Previous Studies 8
Reconnaissance 11
Choice of Representative Forested Wetland Sites. 11
Map Survey 12

METHODS 14

Analysis of National Wetlands Inventory Maps 14
Vegetation Analysis and Site Descriptions. 17
Treatment of Hydrologic Data 18

RESULTS 20

Shoreline Evaluation 20
Description of Fringe Swamps 26
Chowan River. 26
Grapevine Landing 31
Poplar Point. 31
Size Class Distribution 38
Elevation and Sediments 38
Analysis of Flood Events 42

DISCUSSION 43

Regional Shoreline Characteristics 43
Fringe Wetlands as Ecological and Hydrological Units . . 45
Sea Level Rise, Fringe Wetlands, and Landscape Response. 47
Limitations of Study 51
