A Message from North Carolina's Secretary of State

Welcome to the 2011 edition of the *North Carolina Directory of State and County Officials*! Our state's population has boomed in recent decades. The demand for services from government at the county and state levels has increased.

This means that good communications between public agencies and the people they serve are more important than ever. This directory has become an important gateway for North Carolina's citizens, our business community and local governments to contact the agencies that can best provide the particular service they need.

I am very proud to provide this directory as a service to all of its user groups. The N.C. Department of the Secretary of State takes its role of putting citizens in touch with their state government very seriously. I know that this directory will serve as a valuable reference tool for you.

I will also note that this 2011 edition marks the end of an era in this Directory's history. Our next 2012 edition will not be printed on paper. It will be available electronically from our Department's website: www.sosnc.com.

Elaine F. Marshall
