We Have For Sale

Cheap Production

To anyone who has been in the manufacturing business — whether on a large or small scale — this statement is obvious.

Power is an item in all manufacturing costs. In mass production it is a **small** item. In highly specialized production, with a limited output, it is a **large** item.

We offer the cheapest, most flexible power the industrial world has ever known. From the point of view of the manufacturer we recognize no competitors.

If you are not using central station power, see us. We can cut your production costs and at the same time create better working conditions for your employees.

IMPORTANT

GENERAL RULES GOVERNING CLASSES A AND B

The following scale of points shall be used by the judges in placing awards on Classes A and B: Field Crops, 20 points; Garden Crops, 15 points; Home Industry, 15 points; Fruits, 15 points; Educational Value 20 points; Artistic Arrangement, 15 points.

In making awards according to these two classes, special emphasis shall be given to the quality of the field and garden crops, fruits, and to the excellence and practical utility of the home industry exhibit.

The educational value of the exhibit shall be construed to mean practical lessons that may be drawn from it by farmers and others with reference to certain methods of handling, marketing, growing, and selecting seed of the different crops; for instance: samples of corn might be exhibited showing the effects of a systematic, intelligent system of seed selection upon the quality of corn, as well as its yielding powers. Again: an exhibit showing the effect of spraying apples as against unsprayed would have educational value. The effect of growing leguminous crops upon crop yields might be shown concretely or graphically. This, too, would bring out a most valuable lesson to those farmers who might study the exhibits. Many other exhibits of this nature might be devised which would have great value from an educational standpoint.

Each exhibit for Classes A and B shall not contain more than five varieties of any one field or garden crop, except for decorative purposes. Only the best varieties for the different sections should be exhibited.

Home Industry includes canned goods, not to exceed 35 cans, no two alike; and not more than 15 cans of preserves, jellies, and pickles, no two alike; fifty cans in all; also meat, dairy products, eggs, etc., but not fresh-cooked articles or baking.

A neat sign 8 feet long and 18 inches wide should be placed above each exhibit, in line with the requirements to be given by the Superintendent. For Class A, give the name of the Farm and County in which it is located; Class B, give the name of the Community and County.

Plain neat labels or placards should be placed on every group in each exhibit.

No exhibit material entered in Classes A and B will be eligible to compete in other classes.

All those who wish to enter exhibits for premiums in Classes A and B should notify the Secretary of the State Fair, Raleigh, N. C., not later than **October 1, 1933**. Space for these classes is somewhat limited, and exhibitors will be assigned space in the order in which the applications are received and until all space has been allotted.

DEPARTMENT B

Horticultural Products

CHARLES DEARING, Superintendent, Coastal Plain Station, Willard, N.C.
Amount offered in this Department-----\$539.00

FRUITS AND NUTS

Entries Close Saturday, October 7, 1933.

Entries open to individual growers and orchard companies of North Carolina.

IMPORTANT. Each exhibitor should read the following carefully:

As far as possible, it is desirable that horticultural exhibits be brought in and set up by the growers. Where this is not possible the Superintendent will be glad to receive and place on exhibit all suitable horticultural products sent in. However, the Superintendent will not pack box and barrel entries for exhibit. These must come in already packed. All exhibits competing for premiums must be grown in the State.

In sending in fruit for exhibition, select only those specimens that are perfect in form and color, and free from all insect and fungus blemishes. Do not knock or shake off the fruit from the tree, but pick each specimen by hand, taking care not to pull out the stem.

Fruit should be exhibited as nearly as possible in its natural state, and no preference will be given highly polished fruit by the judges.

Fruit to be used in trays, and in plates, should be carefully wrapped and packed. Each fruit should be wrapped and packed. Each fruit should be wrapped separately in paper and packed firmly in box or barrel, taking care to avoid bruising. Label each variety plainly and put in papers to keep varieties separated. Do not use hay, fodder, excelsior, or any other dusty material in packing. Nail up firmly.

IMPORTANT—READ

Address each package plainly to "State Fair, Department of Horticulture, Raleigh, N. C." Each package should be plainly marked with the name and address of the exhibitor. Each package should be plainly marked giving the class in which contents are entered.

PLATES. Plates for the variety exhibits of fruits will be furnished free by the Fair. A perfect plate of fruit should contain five specimens, and no more, characteristic of the variety, with stems attached, of high color, uniform, marketable size, free from cuts and bruises and all insect and fungus blemishes. If additional specimens are sent in by growers, the Committee will select and place on exhibit the best possible plate to be made from all the specimens submitted.

TRAYS. The dimensions of the trays are 11½ x 18 x 3 inches inside measurements. The exhibitor should make a tray of the required dimensions and pack each variety to be displayed in this class, in order to know how many apples are needed. Four or five extra apples per tray should be sent in order to allow for rot and damage in transit.

N. C. STATE FAIR

“HEAR AS WELL AS SEE”

Have you ever been seated in the grandstand, at a big Fair, straining your ears in a vain effort to hear the judges' decision at the end of each race? And, between races, have you tried to hear the famous singer on the platform across the track, succeeding only in hearing the ballyhoo artists in the distance on the midway, because the wind was blowing from that direction?

If you have ever had such experience you may look forward to the racing and attraction events of the 1933 State Fair with greater pleasure than ever before. The grandstand will be equipped with the famous Western Electric Public Address System, permitting every spectator to understand clearly every announcement that is made, and fully enjoy the attractions. Speakers before the microphone will have their voices carried to every nook and corner of the stands through the media of the most scientific sound amplification system ever developed. This is the same system over which the presidential speeches are made, over which Lindbergh made his talks, and over which all events of the first magnitude are broadcast to large audiences.

So, when you enter the grandstand at the State Fair this year you will have the assurance that the finest possible equipment has been installed to insure your complete enjoyment of the programs.

THIS SERVICE IS FURNISHED BY

Wirth and Hamid Fair Booking, Inc.

NEW YORK CITY

BASKETS. Commercial basket apples should be graded to uniform size, of high color, free from bruises, insect and fungus blemishes. They should be properly packed and ring faced in standard bushel baskets.

The Superintendent will see that each entry is plainly marked and correctly named and the entry tag attached to the same, so that the entry can be identified by the judges without difficulty.

A premium offered for a general collection of fruit will not be awarded to a mere pile of apples, or other fruit, but must be for a real collection, arranged on plates and all correctly labeled, and no fruit will be counted in a collection unless it is a fair specimen of the variety. No trashy fruit of any kind will be counted merely to make up a collection. A premium for the best collection of grapes, peaches, or any other fruit will not be awarded for a mere number, but to the quality of the exhibit mainly.

The Superintendent may withhold premiums in any case where the article is not worthy.

No article entered for competition in any one class will be permitted to compete for a premium in any other class, excepting sweepstakes. An exhibitor cannot compete for more than one prize in any class.

No attention will be paid by the Committee to any fruit or other exhibit that is not arranged in accordance with these rules.

Entries in this Department will be limited to the states of Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Tennessee, and Kentucky, excepting the special classification, which is open to the world. Breeders and fanciers are cordially invited.

2. No carload or professional string-man exhibit will be allowed to compete for premiums, except those resident in the States named who are owners and breeders of the birds they exhibit, and maintain a breeding establishment sufficient to raise the birds so exhibited.

NOTE: This rule will not be construed to debar any legitimate number of exhibitors from combining and chartering a car to transport their exhibits if by so doing they can save freight and other expenses, but it will be enforced against those it is intended to debar.

3. All entries must be made with Norman Y. Chambliss, Secretary-Manager, not later than Wednesday, October 4, at 6:00 P. M., and entry fees paid in full at time of entry. Please note carefully amount of entry fees required in various classes. Birds must reach Raleigh not later than 10:00 A. M., Monday, October 9. Judging will begin promptly at 10:00 A. M., Tuesday. All birds not in place at that time will be debarred from competition.

Each bird should be banded and the leg-band number noted on the entry blanks. The State Fair will not be responsible for errors in cooping or handling birds when this rule has not been complied with.

5. Shipments of fowls should be addressed to Superintendent of Poultry Department, N. C. State Fair, Raleigh, N. C., with all express charges prepaid. They will receive proper attention and be returned to owners at close of Fair, unless other shipping instructions are given. Birds showing disease will not be accepted.

7. Premiums will be paid only on standard varieties listed in this catalog and then on worthy specimens only.

8. The State Fair will employ a competent staff of judges, and their decisions will be final. Protest will be entertained only when accompanied by a fee of \$5.00, this fee to be forfeited unless protest is sustained by a majority of the judging staff.

9. All birds are entered at the risk of owners. The State Fair will not be responsible for loss by fire or otherwise, but will exercise all

possible vigilance in the care of exhibits at the Exhibit Hall. The management reserves the right to coop one or more birds of the same variety and belonging to the same person together if absolutely necessary. In no case will two male birds be placed in the same coop.

10. After judging, the management will endeavor to place on the coops any advertising matter supplied by the exhibitor for his coop.

11. Premiums will be paid only to worthy specimens. To win first premium a bird must score at least 88 points, second premium 87 points, less than 87 points, third and fourth prizes will be awarded.

DEPARTMENT M

Implements and Farm Machinery

D. S. WEAVER, Superintendent, State College, Raleigh, N. C.

North Carolina and the Southeast in general have made wonderful progress in many lines, but in the use of farm machinery this section ranks lowest in the United States. A greater portion of the cost of production of North Carolina crops is in labor and power than in any other factor, and there is a tremendous possibility of greatly reducing labor and power costs by the use of modern farm equipment.

The farmers of North Carolina, faced by ever-increasing labor costs and diminishing prices, are seeking a profit by decreasing production costs. The use of better seed and proper fertilizer has been encouraged for a long time, but little attention to reducing labor costs by increasing horsepower usage per farm worker has been paid until recently. The future of the farm machinery industry in this section is very bright.

Manufacturers of implements sold in North Carolina are being given a wonderful opportunity to display and demonstrate their line at the State Fair, which brings together a great group of agricultural people.

The large machinery shed is located in a very advantageous position on one of the main thoroughfares of the grounds. Occupying this prominent position gives every opportunity to the exhibitor to display his products. Just beyond the building is a large, level field where tractors, road machinery, plows, harrows, etc., may be demonstrated.

No premiums are offered in this Department, but the facilities offered manufacturers for bringing their wares to the attention of the public cannot be equaled. It would be difficult to secure better advertising than at the State Fair.

Exhibit space in the machinery shed and the open space is priced very reasonably. Details may be had by addressing the Secretary of the North Carolina State Fair, Raleigh, N. C.

Applications should be filed as early as possible.

All exhibits must be completed for public inspection by 10:00 a. m., October 9th.

Exhibitors in this Department may purchase Exhibitor's Ticket for the entire week at \$2.00. Details will be found elsewhere under the head of "Admissions."
