EXPERIMENTS AND ESSAYS.

EXPERIMENTS.

For each of the two best experiments, or series of experiments, on any of the following subjects, a premium as follows.

1. How late, in reference to the growth, the last tillage (by plow or cultivator,) should be given to corn for the best product; and whether the said last tillage should be shallow or deep. \$5
2. Best series of comparative experiments in the cultivation of corn, 10

3. Tobacco.—Culture, cost and profit of cultivating, and comparative effects on production, from different distances of planting, modes of priming, topping, &c., comprising at least three different experiments. 20

4. Cultivation and comparative feeding value of rye. 5

5. Planting, culture, pruning and supporting in open vineyards, different varieties of grape vines for the table, or making of wine. 20

ESSAYS.

For each of the best five, on any of the following subjects, a premium as follows:

1. On improving and enriching poor land—whether naturally poor, or naturally rich, or good, and subsequently exhausted by severe cropping. \$15
2. On draining, 10
3. On rotation of crops, 5
4. On the accumulation, preparation and application of stock yard and stable manure. 10
5. On the formation and constituents of composts and the application of them. 10
6. On the "green sand" or gypseous earth of lower North Carolina as manure, and the facts and causes of effect or non-effect. 5
7. On the properties and value of the Southern Pea, (or "cornfield pea" of any variety,) and the culture thereof, whether for saving the pea ripened, or ploughing under the growth, green or dry, for manure, and as a preparation for wheat or other grain crops, and as food for swine and other stock, 5

P 17972

8. On the comparative profit of planting and farming, and of the combined improvement of land being considered. 10

- Best crop of ½ acre of Flax, with full account of cultivation and preservation. 10
- Best crop of Broom Corn, not less than 1 acre, one bale, weighing not less than 150 lbs. sent as a sample. 15

Statement to be made by Competitors on Field Crops.

1. The land must be measured by some competent person, who shall make affidavit of the accuracy of the measurement, and the quality of the ground. 25

2. The applicant shall make affidavit according to the forms annexed, to the quantity of grain raised on the ground, entered on the premium list, which affidavit must accompany the application for premium, together with a sample of the grain or other product. 20

3. The principal object of the Society being to promote profitable cultivation, it does not offer premiums for crops produced by extravagant expenditure; therefore a detailed, certified account of the expense of cultivation, must be made; the expense of labor and manures stated and the kind of manure used. 10

4. The kind and condition of the soil; the quantity and kind of seed used; the time and mode of planting or sowing stated. Samples of grain and vegetables produced, to be exhibited at the State Fair, when practicable, and also to be sent to the Executive Committee, at Raleigh, prior to the meeting of the Committee in January, 1861.

5. The grain must either be weighed or measured in a legal half bushel; corn to be measured in the ear, and an average specimen of not less than four barrels of average quality of ears shelled, cleaned, and weighed or measured, as above, after the 15th of November, and the number of bushels thus estimated, stated in the affidavit.

FORM OF AN AFFIDAVIT.

— County, S. S.—A. B., being duly sworn, says he accurately measured the land upon which C. D. raised a crop of — the past season, and the quantity of the land is — acres and no more.

[Signed] A. B.

Sworn to before me, this — day of —, 186 .

— County, S. S.—C. D., being duly sworn, says he raised a crop of — the present season, upon the land measured by A. B., and that the quantity of grain raised thereon was — bushels and no more, (or measured in a sealed half bushel as the case may be,) and that the statements in regard to the manner of cultivation, &c., are correct, to the best of my knowledge.

[Signed] C. D.

Sworn to before me, this — day of —, 186 .
—, Justice.

[DISCRETIONARY PREMIUMS.—Judges will recommend to the Executive Committee for Premiums, any articles in each class deemed worthy, and for which a special premium has not been offered.)

The attention of the Judges is to be called to the fact that no article can take two premiums.

REGULATIONS.

1.—All members of the North Carolina State Agricultural Society will be furnished with a badge of membership, upon payment of the annual tax of \$2, and will be required to wear the same during the Fair. This badge will admit the bearer, his wife and single daughters and sons under eighteen years of age during the fair.

2.—Agricultural Societies and Institutions from other States are invited to send Delegates. Such delegates will be presented with a complimentary card.

3.—All exhibitors who intend to compete for the premiums of the Society, must become members of the same, and have their articles on the ground and entered at the Secretary's Office in Reception Hall, at or before 5 o'clock on Monday evening, October 17th, without fail, so that they may be arranged in their respective departments.

4.—The regulations of the Society must be strictly observed by exhibitors, otherwise the Society will not be responsible for the omission of any article or animal not entered under its rules.

5.—No article or animal entered for a premium, can be removed or taken away before the close of the exhibition, No premium will be paid on articles or animals removed in violation of this rule.

5.—All articles and animals entered for exhibition must have cards attached with the number as entered at the Secretary's office; and the exhibitors must in all cases obtain their cards previous to placing their articles or animals on the Fair Grounds.

7.—Those who wish to offer animals or articles for sale during the Fair, must notify the Secretary of such intention at the time of entry.

8.—The Executive Committee will employ

a day and night guard, and will use all reasonable precaution in their power, for the safe preservation of all articles and stock on exhibition, but will not be responsible for loss or damage that may occur. Exhibitors must give attention to their articles or animals during the Fair, and at the close of the exhibition attend to their removal.

9.—The awarding committee of judges selected for the next Fair, are earnestly requested to report themselves to the Chairman of the Executive Committee, at Reception Hall, upon the grounds of the Society, on Tuesday morning, the 16th of October, 1860.

10.—In no case can the judges award special or discretionary premiums; but will recommend to the Executive Committee any articles in their class which they may deem worthy of special notice and for which a premium has not been offered.

11.—The judges on animals will have regard to the symmetry, early maturing, breeding, and characteristics of the breeds which they judge. They will make proper allowances for the age, feeding and condition of the animals, especially in the breeding classes, and will not give encouragement to over-fed animals.

12.—No stock of inferior quality will be admitted within the grounds. A committee will be appointed to rule out all below a medium grade.

13.—Animals to which premiums have been awarded must be paraded around the track, that the visitors may see the prize animals.

14.—No person will be allowed to interfere with the judges during their adjudications.

15.—The several Superintending Committees will give particular directions to all articles in their departments, and see that all are arranged in the best order possible to lessen and facilitate the labors of the judges in their examination.

16.—The Superintendents will attend each set of judges, in their respective departments and point out the different articles or animals to be examined, will attach prize cards to the articles or flags to the successful animals after the judges' reports have been made up and delivered to the chairman of the Executive Committee.

20.—The Chief Marshal, with efficient aids, will be in attendance during the hours of exhibition to keep proper order.

21.—No exhibitor will be permitted to enter more than one animal in each of the sub-classes.

22.—Animals, when duly entered, are well

provided for by the Society, without charge to the owner, and cannot be removed from the ground, except by permission of the Executive Committee.

23.—All machines, implements, or other products of mechanical art, must be exhibited by their respective makers, or inventors, or improvers, or their assignors, to or for whom only premiums for such articles will be awarded.

24.—Every machine or implement offered for a premium must be so designated or described as will serve to identify it to future purchasers, and also the selling price of the article must be stated and marked on the la-

bels and in the published reports of premium articles.

25.—Efficiency, cheapness and durability will be regarded as chief excellencies in every machine or implement.

26.—The track will be open for the trial of harness and saddle horses every day during the Fair.

27.—A band of music will be in attendance each day during the hours of exhibition.

28.—An efficient police will take charge of the grounds during the night.
